The first time that crystal stemware produced in Asia delivers international quality, for the most enjoyable dining & wining experience.

# CRYSTAL OF MODERN ASIA

## World Class Design

The design of Lucaris stemware and wine accessories are a collaborative achievement between Ocean Glass, Toyo-Sasaki Glass and Martin Ballendat, the multiple award-winning German designer whose works appear in portfolios of many world class brands.

## Eastern Expertise Meets Western Technology

Glassmaking expertise of Toyo-Sasaki Glass of Japan, Ocean Glass of Thailand and the most advanced glass technology from Germany brought together, have resulted in the creation of world class quality crystal glass. New lead-free crystal glass composition, with physical aesthetics comparable to conventional lead crystal results in exceptional clarity and brilliance, with extra strength & durability.

## Evoke the Wining Senses in Modern Asian Cuisine

With world class quality and design, inspired by Modern Asian cities lifestyle, Lucaris evokes the wining senses, enabling the wine to develop its full aromas and tastes, and creates an emerging paradigm in the art of paring wines with modern Asian Cuisine. The result is an exciting new complementary dining & wining experience.

## PERFECT ENCOUNTER

### BRIDGING WINES OF THE WORLD WITH MODERN ASIAN CUISINE

Pairing wine with an Asian meal is not about how to best complement or enhance a particular dish, but rather how to enhance a rich and multi-faceted dining experience, comprised of many different dishes each with many different taste profiles, none of which fall into traditional western taste profiles.

The ultimate goal for modern Asian food and wine pairing should be harmony. A wine should not alter the integrity of the flavors in a meal, and it should also pair well with the majority of dishes.

Chardonnay is a very versatile white wine that works well with most Asian flavors. Its fruity, sweet character is a refreshing complement to salty and soul foods.

Featuring : Hong Kong Hip Chardonnay paired with a selection of classic Thai appetizers with a modern twist.

## A GREAT COLLABORATION OF PERFECTION

The delicate matching between food and wine can create extraordinary Asian gastronomical experiences.

- Sweet flavors thrive on contrasting wines.
- Sour notes are better with low acidic wines.
- Salty dishes are perfectly matches with white or low tanning red.
- The Smoky palate embraces fruity and flavorful wines.
- Spicy delights refreshing and fruity wines.

Full-bodied red wines are the perfect complement to a rich flavor found in savory Asian dishes, such as roast and barbequed meat.

Featuring : Shanghai Soul Bordeaux with a modern Chinese interpretation of barbequed duck breast.

THE  
ELEMENTS  
YOUR OWN PERFECTIONS

## INSPIRATION

Drawing inspiration from Traditional Chinese Medicine and Astrology, Ayurveda as well as Western conceptions of the elements, we designed glass shapes that would bring out that “element” in any wine style. Each glass is multi-purpose and can be used for red, white, rosé and even sparkling wines.

**SARAH HELLER**  
MASTER OF WINE

When Sarah Heller, Master of Wine and Lucaris Crystal set out on a journey to create a new glassware range, we quickly realised that preferences in wine were highly personal. What is perfect for one person, situation or meal may not be so for another. Wine is also inherently complex, therefore trying to match each glass to each wine created more confusion than harmony.

In our research, we realised that cultures across the Eurasian continent have long had simple, intuitive systems for understanding personality, body and the natural world based on the elements. Thus, we have used a system of elements (Fire, Water, Earth, Air and Gold) to simplify matching wines to the person, situation or meal and have produced The Elements collection.

## CLEANING INSTRUCTIONS FOR DISHWASHER

*Lucaris Crystal Stemware & Barware are commercial dishwasher safe. Proper cleaning and handling will ensure long lasting brilliance, clarity and enhanced natural beverage flavors.*

It is always best to put similar-sized glasses together. This will improve stability and prevent abrasion among glasses, thus preventing breakage.

Thoroughly wipe-off residues like lipstick stains, before placing in the dishwasher.

Place glasses in the top rack.

Each rack should be distanced properly according to the height and width of the glasses. This will ensure stability during washing.

We recommend choosing a cycle with minimal heat and “glass friendly” dishwasher to wash the glasses.

Once the cycle has completed fully, open the door to allow the steam to escape and let the glasses cool naturally.

We recommend polishing glasses after removing from the dishwasher to eliminate unwanted water spots. Glasses should still be slightly damp for best results.

See Lucaris “Care Recommendations”

## CARE RECOMMENDATIONS

1. Wash with warm water. Detergent and glass cleaner should not be used.

2. Leave glasses to drain for a while on a linen towel.

3. Steam glasses over boiling water for superior shine.

4. Use 2 micro-fiber crystal towels for polishing. Hold glass by base to polish the base.

5. Use left hand to cradle the bowl and polish it with your right hand. Never twist the base and bowl as this could lead to breakage

6. Your hands must always be clean. Keep paper towels within easy reach to encourage cleaning them.

7. Avoid breathing on the glass throughout the cleaning process.

8. Enjoy superb results!
